

Dijon Museum of Fine Arts (Dijon, France)

Project management of the lighting for the renovation of the Museum of Fine Arts, which proposes the creation of three museographic itineraries corresponding to three major stages of Western art: Middle Ages/Renaissance and Classicism/Modern Art. Our mission covers the design of the lighting systems, the outdoor illumination, the lighting of the exhibitions and the adjustment of the

more than 1400 artworks at the end of the project, from antiquity to contemporary sculpture.
