

Apex 2100 Hôtel sports centre of excellence

(Tignes, France)

Hotel establishment with all the facilities required for a high altitude training centre. It receives professional athletes in preparation for Olympic competitions and all types of athletes in the off-season under the same conditions. At the same time, it trains young athletes with classrooms, a library and seminar areas. Awarded with a label of high performance, the building is at the cutting edge of technology in terms of the equipment necessary

for thermal, acoustic and luminous comfort, also chosen according to environmental criteria. Its iconic architecture integrates the equipment in a dense and strong stone base, and the accommodation rooms in a light and dancing volume, made of wood and glass, taking advantage of the multiple orientations and a maximum of sunshine. We ensure the illumination of the entire establishment. The project also focuses on circadian lighting.
