

Forecourt of the Pont Neuf and La Samaritaine (Paris, France)

In the heart of Paris, at the junction with the Pont Neuf, the La Samaritaine rehabilitation project will be completed in 2019. Grand hotel, shops, equipment, offices... to which the landscape office In Situ gives a new square. Open space, but made of intimate planted corners, refreshed by water tables, the project offers a space that magnifies the presence of the building. The lighting, discreet and contemporary, underlines the essential elements of the place.
