

## A new identity for the city center and the Square de la Rotonde

(Aix-en-Provence, France)

The lighting establishes the identity of the new BHNS line as well as the territory it crosses (7 km). At the heart of the project, we are redesigning the lighting of the Square de la Rotonde and its monumental fountain at the end of the Cours Mirabeau. The lighting, soft and delicate, creates a new space of destination and urbanity. © Fred Laurès
