

A square bridge, a place of events

(Bordeaux, France)

On behalf of OMA, we develop and update the lighting concepts developed by lighting designer Odile Soudan up to the AVP phase. This bridge, over 40m wide, is a public square on the Garonne: it will regularly hosts events (wine fair, etc.) and becomes a totally pedestrian area. Our mission goes up to the delivery of the bridge. It includes tunnels and a smart

City management is particularly developed on the bridge. © OMA
